

```
visitWebpage ("http://page.com/download/part1")  
    .then (function () {  
        console.log ("Part 1 downloaded");  
    })  
    .catch (function () {  
        console.log ("Error while downloading Part 1");  
    })
```

```
visitWebpage("http://page.com/download/part1")  
  .then(function() {  
    console.log("Part 1 downloaded");  
  })  
  .catch(function() {  
    console.log("Error while downloading Part 1");  
  })
```

```
async function test(x) {  
  if (x === 5) {  
    throw new Error("Invalid value");  
  }  
  return x * 2;  
}  
  
console.log(test(5));
```
